

MATERIALS INNOVATION HUB 2018

IN ASSOCIATION WITH

Present your materials solution to a panel of industry experts
at Highways-UK at the NEC on 7/8 November 2018

Unlocking innovative **materials,** **components or processes** used for the construction and maintenance of UK highways

Highways UK in association with the Mineral Products Association is running a competition to identify innovative ideas to showcase at this year's event.

We are looking for ideas in the following categories:

- efficiency of pavement materials
- infrastructure and structures around the pavement
- on the pavement
- safety
- future highways

QUALIFYING ENTRIES BENEFIT FROM...

- Interact with industry experts and client organisations
- Free wall display and brochure content at Highways UK
- An opportunity to secure post event mentoring and even trials from highways asset owners

HOW TO ENTER

Visit www.highways-uk.com for more information
Competition closes on 31 July 2018
